
Michel

SOFAS

Antonio Citterio

Description

Designed for those who love comfort and modernity, intended to be an evergreen, the Michel seating system mirrors the design philosophy of its author who shows a preference for simple shapes - pure and elegant in their linear form without any additional decoration to underscore the concept of function. The many elements can create both formal and social configurations in an extensive range of sizes. Distinctive features include the aluminium frame and the seat cushion.

Technical information

Back and armrest internal frame:

tubular steel and steel profiles
