## DROPLETS SCULPTURE

**DESIGNER:** Jan Plechac and Henry Wielgus

**YEAR OF DESIGN:** 2015

Inspired by nature, emotion and a unique frozen moment, this lighting sculpture reminds us of our fascination with water. It captures the perfection of the natural movement when water collects into a drop. The entire composition, as well as the individual elements and their shapes play with the magic of water, air and gravity. The harmonious density gradient highlights this instant, providing sensations of depth and motion.
