

## Terminal 1

**ARMCHAIRS** 

2008

Jean-Marie Massaud

## Description

With the dual function of armchair and chaise longue, Terminal 1 possesses the essential elements of a floating sculpture. A strong aptitude for experimentation results in fluid shapes, epitomised by an exquisite balance between the seats and the metal support, and a striking contrast between the glossy frame and the matt leather cover, enhancing the sophistication of the piece's monochrome appearance.

## Technical information

1

Internal shell

hard polyurethane

Internal shell upholstery

Bayfit® flexible cold shaped polyurethane foam

Support frame tubular steel

**External shell** 

hard polyurethane

Ferrules

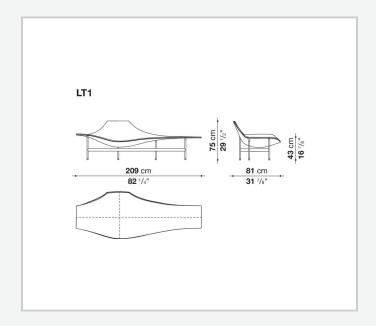

thermoplastic material

Cover

Gamma leather

2 6/26/24
