

"I want to design a chair that looks balanced, and gives people a 'sharp and soft' image at the same time," said German furniture designer, Michael Schneider. If you look closely at the chair, you will notice a smooth line that is formed from the beginning of the armrest to the end of the backrest. This is a chair that has a style that suits all kinds of situations, whether it is for home residence or for public facilities. The backrest of the dining chair is available in three colors; the table comes in two types, a regular solid wood type and extension type extendable up to 700 mm.
