colour patterns

Wood is one of the most noble, beautiful and versatile natural products we have. Every piece of wood is unique. Differences in colour are a result of the wood's structure and place of origin. Similarly, the age of the piece of furniture will determine its colour, as natural factors in your home's environment (e.g. sunlight) can change the surface colour. When your order specifies a particular colour, we do our best to match it. But minor variations in wood, leather, fabric, glass and ceramic are inevitable. An exact colour match will never be possible.

*wild wood versions only available on fronts and table tops

**venetian oak is only available on fronts
