

## nextmaruni / CHAIR

This wood chair features asymmetrical "ears", which appear to have been hand-drawn, that give it an impressive appearance and its compact size allows this chair to be placed anywhere. It is also notable for the rich color variations available. You can choose the color you want from a total of eight colors, such as a natural color using the low-luster characteristic texture of beech wood or a subtle black with a translucent wood grain feeling, as well as pink, green, yellow, white-beige, brown and dark gray that were selected from an enormous variety of colors through numerous discussions and the creation of various samples.

## DESIGN

SANAA , 2005

"There's nothing I'm particularly conscious of, but I'm aware that my work is sometimes thought of by people from other countries as being distinctively Japanese. It seems to me that there is probably a different awareness of form and shape at play here."

## MATERIAL & FINISH

beech

C-0 clear	NK-1 natural black	EF-0 pink	EG-0 green	EE-0 yellow	ED-0 white beige
--------------	-----------------------	--------------	---------------	----------------	---------------------

EH-0 brown	EI-0 dark gray
---------------	-------------------

## WARRANTY

We will guarantee the product for two years from the date of delivery of the product. For the content of quality assurance please see the "Warranty Policy" included in the product.

## TESTS

ISO7173-L4 / Determination of strength and durability  
ISO7174 / Determination of stability

## TECHNICAL INFORMATION

### WOOD

The veneer used in molded plywood are managed and felled in a planned manner.

### STEEL

The legs are made of chrome-plated steel tubes.

### LEG CAP

The legs are equipped with vinyl chloride caps.

### VOC

The coating, glue, plywood, and MDF used here reduce VOC emissions in manufacturing processes and finished products. These materials have been tested for formaldehyde emissions in accordance with the ISO12460 standard and confirmed not to exceed the 0.4 mg/l emission level.

## PURPOSE OF USE

Indoor

Maruni Wood Industry has established various test standards and designs for comfortable use, however, use of products beyond the expected scope can lead to cracking and snapping of wood parts. There are several things you should keep in mind in order to properly preserve the product and continue using it for a long time. Therefore, be sure to read the instruction manual beforehand.
