

Fauteuil Direction Pivotant

Jean Prouvé, 1951

vitra.

Although it is immediately evident that the Fauteuil Direction Pivotant hails from a different era, it appears in no way outdated or old-fashioned. This is due to the distinctive aesthetic of French designer, architect and engineer Jean Prouvé, who always placed an uncompromising focus on functional requirements.

The voluminous seat and backrest cushions rest on a sleek frame made of tubular steel and bent sheet metal, while the wooden armrests lend the office chair a touch of familiar comfort. The swivel seat of Fauteuil Direction Pivotant is height adjustable, and the backward tilt mechanism can be adapted to the individual user's weight. These features are paired with the generous upholstery to ensure optimum comfort. Leather or fabric covers are available in many different colours, making it easy to find the ideal chair for any type of business workplace or home office.

The swivel seat of Fauteuil Direction Pivotant is height adjustable, and the backward tilt mechanism can be adapted to the individual user's weight. These features are paired with the generous upholstery to ensure optimum comfort. Materials

- **Seat and backrest:** polyurethane filling; cover in fabric or leather.
- **Armrests:** solid wood in natural oak with oiled finish, dark stained oak with protective natural lacquer finish, or American walnut with oiled finish.
- **Base:** five-star base made of bent sheet steel and tubular steel, powder-coated (smooth). Equipped with double castors in basic dark, Ø 60 mm.
- **Seat mechanism:** adjustable backward tilt, lockable in the forward position. Continuous seat height adjustment with gas spring.
- **Origin of wood:** oak (*Quercus robur*) from Western Europe and/or Poland; American walnut (*Juglans nigra*) from the USA.

Armrests

Base

Twill Home/Office, F60

vitra.

The high percentage of natural fibres gives Twill very pleasant tactile qualities and an inviting appearance. Extremely durable with excellent abrasion resistance, it combines the qualities typically found in home furnishings with the demanding requirements of the project sector.

Twill is available in 18 colours.

Material	30% polyamide, 70% new wool
Weight	325 g/m ² (9.6 oz/y ²)
Width	155 cm +/- 2 cm (61")
Abrasion resistance	100,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

Volo Home/Office, F60

Volo is a finely structured wool blend with a refined weave that gives it an elegant appearance. This expressive textile shows strong solid colours to full advantage while simultaneously offering pleasant tactile qualities. With its soft look and appealing texture, Volo is a perfect fit for home interiors, but it is also well suited for use in the contract sector.

Volo is available in 17 colours.

Material	15% polyamide, 85% new wool
Weight	435 g/m ² (12.8 oz/y ²)
Width	145 cm +/- 3 cm (57")
Abrasion resistance	100,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

Leather Premium Home/Office, L40

vitra.

Leather Premium F Home/Office, L50

The properties of Leather Premium F are equivalent to those of Leather Premium. However, Leather Premium F is processed with a tanning agent extracted from olive tree leaves (a waste product of the olive harvest), and the entire production process is carried out with the least hazardous chemicals in the smallest possible amounts.

This sustainably produced semi-aniline leather is available in a selection of 6 colours.

Material

Semi-aniline nappa leather with a very soft and supple feel, vegetable tanned

Fastness to light
