

Daimon

Design Giuseppe Bavuso

Daimon

Diaphragm, boiserie, decorative element: inspired to the traditional Japanese partition systems, Daimon clearly reflects the aesthetic and functional qualities, as well as graphic and architectural features. An ancient solution, reinterpreted by Rimadesio through the cross between the vertical aluminum ribs and the horizontal decoration lines in the laminated double glass panel. An original and fascinating aesthetic that, thanks to the various combinations of finishes in glass and aluminum components, becomes an interesting opportunity to characterize the space.

Diaframma, boiserie, elemento decorativo: ispirata ai divisori tradizionali giapponesi, Daimon ne ripropone chiaramente le qualità estetiche e funzionali, oltre che grafiche e architettoniche. Una soluzione antica, reinterpretata da Rimadesio attraverso l'incrocio tra le nervature verticali in alluminio e la decorazione a linee orizzontali sul pannello in vetro doppio stratificato. Un'estetica originale e ricca di fascino che, grazie alle varie combinazioni tra le finiture previste nel vetro e i componenti in alluminio, rappresenta una interessante opportunità di caratterizzazione dello spazio.

Membran, Holztafelung, dekoratives Element: Inspiriert an traditionellen japanischen Divisionen, reproduziert Daimon seine ästhetischen und funktionalen Qualitäten, sowie Grafik und Architektur. Eine alte Lösung, die Rimadesio durch die Kreuzung der vertikalen Aluminiumrippen und der horizontalen Liniendekoration auf der zweischichtigen Glasplatte neu interpretiert. Eine originelle Ästhetik voller Charme, die dank der verschiedenen Kombinationen der Oberflächen im Glas und den Aluminiumkomponenten eine interessante Möglichkeit bietet, den Raum charakteristisch zu gestalten.

Diaphragme, boiserie, élément décoratif: inspiré des divisions traditionnelles japonaises, Daimon reproduit clairement ses qualités esthétiques et fonctionnelles, ainsi que son graphisme et son architecture. Une solution ancienne, réinterprétée par Rimadesio à travers l'intersection des profils verticaux en aluminium et la décoration des lignes horizontales sur le panneau de double verre feuilleté. Une esthétique originale pleine de charme qui, grâce aux différentes combinaisons entre les finitions fournies dans le verre et les composants en aluminium, représente une opportunité intéressante pour caractériser l'espace.

Diafragma, boiserie, elemento decorativo: inspirado en las divisiones tradicionales japonesas, Daimon reproduce claramente sus cualidades estéticas y funcionales, así como los gráficos y la arquitectura. Una solución antigua, reinterpretada por Rimadesio a través de la intersección de las nervaduras de aluminio verticales y la decoración de líneas horizontales en el panel de vidrio doble estratificado. Una estética original llena de encanto que, gracias a las diversas combinaciones entre los acabados proporcionados en el vidrio y los componentes de aluminio, representa una oportunidad interesante para caracterizar el espacio.

Sliding doors

Il sistema di scorrimento, comune ad ogni porta scorrevole della collezione, è concepito per garantire la massima essenzialità estetica. Così il binario prevede profili di copertura disponibili nelle medesime finiture della struttura delle ante scorrevoli o verniciabili in loco così da risultare uniformi al soffitto.

The sliding system, same for every sliding panel of the collection, has been engineered to grant the maximum aesthetical essentiality. The rail provides covering profiles available in the same finishing of the structure of the sliding panels or to be painted on site, to match the ceiling finishing.

Das Gleitsystem, sozusagen der gemeinsame Nenner jeder Schiebetür der Kollektion, ist so konzipiert, dass die maximale ästhetische Wesentlichkeit gewährleistet wird. Aus diesem Grund sieht die Schiene Lackierungsabdeckungen in derselben Farbe der Schiebetüren vor oder kann vor Ort in einer der Decke gleichenden Farbe lackiert werden.

Le système de coulissement, le même pour tous les panneaux coulissants de la collection, est conçu pour assurer l'essentialité esthétique maximale. Le rail a donc des profils de finition disponibles dans les mêmes finitions que la structure des panneaux coulissants ou laquables sur place de façon à être uniforme au plafond.

El cierre corredero, común a cada puerta corredera de la colección está pensado para garantizar la máxima esencialidad estética. Así la guía está dotada de perfiles embellecedores disponibles en los mismos acabados que la estructura de las hojas correderas o para pintar de manera que queden del mismo acabado que el techo.

Caratteristiche tecniche esclusive
Exclusive technical features

1. Struttura in alluminio estruso (lega EN AW-6060) in finitura brown. / Extruded aluminium frame (alloy EN AW-6060) in brown finishing.

2. Vetro Grigio trasparente con decorazione stratificata brown in tinta alla struttura. Conforme alle norme UNI EN 12543, UNI 7697 e UNI EN 12600. Transparent grey glass with layered brown decoration in the same finishing of the structure, conforms to UNI EN 12543, UNI 7697 and UNI EN 12600 standards.

Descrizione tecnica
Technical description

I pannelli scorrevoli del sistema Daimon vengono sempre realizzati su misura in altezza e larghezza, fino alle dimensioni massime indicate nello schema a fianco. La maniglia 2015 è disponibile in finitura brown o nero.

Daimon panels are always custom made in height and width according to the dimensions indicated on the scheme in the next page. The handle 2015 is available in brown or black finishing.

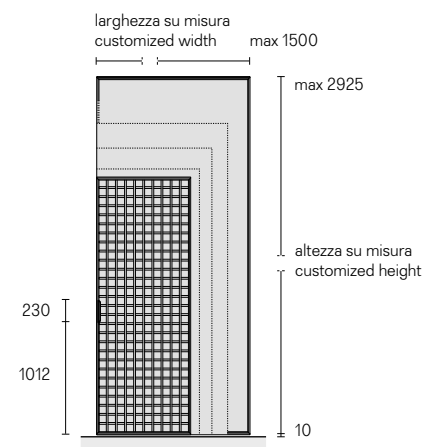

Daimon Paneele sind immer nach Mass in Hoehe und Breite hergestellt. Siehe Maximal-Masse, die seitlich angegeben sind. Der Griff 2015 ist in brown oder schwarz verfuegbar.

Les panneaux Daimon sont réalisés toujours sur mesure, soit en hauteur qu'en largeur, selon les dimensions maximales indiquées dans le plan à côté. La poignée 2015 est disponible en finition brown et noir.

Los paneles Daimon se realizan siempre a medida en altura y anchura, hasta las dimensiones máximas indicadas en el esquema de al lado. La manilla 2015 está disponible en acabado brown o negro.

1. Profilo di scorrimento brevettato in estruso d'alluminio. Dimensioni in lunghezza fino a 6000 mm.
2. Profilo telescopico di aggiustaggio brevettato. Consente la perfetta messa in bolla del binario di scorrimento e di compensare gli eventuali dislivelli del soffitto, senza fasce di tamponamento e spessori aggiuntivi.
3. Velella copri-binario in estruso di alluminio. Montaggio rapido ad incasso.
4. Profilo in alluminio ad incasso totale. Binario di scorrimento dotato di regolazione in altezza di 14 mm.
5. Profilo di ancoraggio a parete in lega di alluminio (EN AW-6005A) temperato. Garantito per carichi di 100 kg per metro lineare.
6. Profilo di copertura brevettato in alluminio ad ancoraggio rapido, in tinta alla struttura della porta scorrevole o predisposto per la verniciatura in loco in tinta al soffitto.

1. Profil de coulissement breveté en extrudé d'aluminium. Dimensions exceptionnelles en longueur jusqu'à 6000 mm.
2. Profil télescopique d'ajustage. Il permet de compenser les éventuels défauts du plafond, sans l'utilisation d'aucun type de tamponnement.
3. Bandeau de fermeture en extrudé d'aluminium. Montage à encastrement rapide.
4. Profil en aluminium à encastrement complètement. Rail de coulissement réglable en hauteur de 14 mm.
5. Profil de fixation mural en alliage d'aluminium trempé (EN AW-6005A). Garanti pour poids de 100 Kg par mt.lin.
6. Profil de couverture breveté en aluminium avec système de fixation rapide, dans la même finition de la structure du panneau coulissant ou prêt pour la peinture sur place dans la teinte du plafond.

1. Patented sliding profile in extruded aluminium. Exceptional dimensions in length till 6000 mm.
2. Patented telescopic adjusting profile. It allows to counterbalance differences in ceiling height without the use of padings or coverings.
3. Closing cover for rail in extruded aluminium. Quick assembling.
4. Aluminium total built in profile. Rail adjustable for 14 mm.
5. Wall fixing section in hardened aluminium alloy (EN AW-6005A). Guaranteed for loads of 100 kg per linear metre.
6. Patented aluminium covering profile with quick fixing system, in the same color of the sliding panel structure or prepared to be painted on site to match the ceiling.

1. Perfil corredero patentado en extrusión de aluminio. Dimensiones excepcionales hasta 6000 mm.
2. Perfil telescópico de ajuste patentado. Permite ajustar eventuales desniveles del techo, sin bandas y espesores añadidos.
3. Tapa de cierre en extrusión de aluminio. Montaje rápido a encaje.
4. Perfil en aluminio embutido totalmente. Guía dotada de regulación en altura de 14 mm.
5. Perfil de anclaje a pared en aleación de aluminio (EN AW-6005A) templado. Garantizado para cargas de 100 Kg por metro lineare.
6. Perfil embellecedor en aluminio de sujeción rápida patentado, combinado a la estructura del panel corredero o preparado para la pintura en obra combinada al acabado del techo.

1. Patentiertes Laufprofil aus Druckguss Aluminium. Gesamtlänge von 6000 mm lieferbar.
2. Patentierten teleskopischen Profil. Sie erlaubt eine Ausgleich eventuellder Decken-unebenheiten ohne zusätzliche Vorarbeiten.
3. Blende aus gezogenen Aluminiumguss, schnelle Klick-Montage.
4. Eingebauter Aluminium Profil. Laufschiene regulierbar in Höhe von 14 mm.
5. Decke-Befestigungsprofil aus temperierter Aluminium-Legierung (EN AW-6005A). Garantierte Tragfähigkeit 100Kg pro Laufmeter.
6. Patentierte Abdeckprofile aus Aluminium mit System zur schnellen Montage. Erhältlich in der Strukturfarbe der Schiebepaneele oder grundiert, um vor Ort in der Deckenfarbe lackiert zu werden.

Componenti del binario di scorrimento Sliding rail components

1. Binario di scorrimento con profilo telescopico di aggiustaggio brevettato. Consente la perfetta messa in bolla del binario di scorrimento. Regolazione in altezza di 25 mm per la versione a soffitto.
 2. Freno soft motion, dotato di molle di richiamo e pistoncino a gas, inseriti in un supporto in nylon fibra stampato ad iniezione.
 3. Carrello di scorrimento. Corpo in nylon basculante su due assi, progettato per seguire le eventuali imperfezioni della parete e del soffitto garantendo uno scorrimento sempre perfetto. Ruote in nylon e fibra di vetro. Portata max 100 kg per carrello.
1. Rail de coulissement avec profilé télescopique d'ajustage breveté. Il permet de mettre parfaitement à niveau le rail de coulissement. Réglage en hauteur de 25 mm pour la version au plafond.
 2. Frein soft motion avec ressorts de retour et petit piston à huile, insérés dans un support en fibre de nylon moulé par injection.
 3. Chariot de coulissement. Corps en nylon, basculant sur deux axes, étudié pour suivre les éventuelles imperfections du mur et du plafond en garantissant un coulissement toujours parfait. Roulettes en nylon et fibre de verre. Charge maximale de 100 kg par chariot.
1. Guía de deslizamiento con perfil telescópico de ajuste patentado. Permite un perfecto alineamiento de la guía.
 2. Freno soft motion, equipado con resortes de retorno y de pistón al aceite, colocados en un soporte en fibra de nylon, moldeado por inyección.
 3. Carro de deslizamiento. Cuerpo de nylon basculante sobre dos ejes, diseñado para seguir las eventuales imperfecciones de la pared y del techo garantizando un deslizamiento siempre perfecto. Ruedas de nylon y fibra de vidrio. Carga útil máx. 100 kg por carro.
1. Gleitschiene mit patentiertem Teleskopprofil zur Justierung. Ermöglicht eine perfekte waagerechte Ausrichtung der Gleitschiene. Höhenregulierung um 25 mm für Deckenschiene.
 2. Eingebauter Soft-Motion-Bremse, mit der Rückkehr-Federn und Kolben-Öl ausgestattet, die in der spritzgegossenen Unterstüzung von Nylon-Faser, eingebaut sind.
 3. Laufwagen Doppelgehäuse aus Nylon, zweiachsig schwingend, geplant, um eventuelle Unebenheiten an Wand und Decke auszugleichen und ein perfektes Gleiten in jeder Situation zu garantieren. Rollen aus Nylon und Glasfaser. Höchstlast pro Laufwagen 100 kg.

Binario in tinta con la struttura o predisposto per la verniciatura Rail in the same finishing of the panel structure or ready to be painted on site

1. Profilo di scorrimento brevettato con microaletture interne, studiate per ridurre e attutire il rumore durante lo scorrimento del pannello.
 2. Regolazione in altezza del pannello mediante giunto cardanico laterale: la regolazione è effettuabile anche con il pannello già montato per semplificare al massimo le operazioni di montaggio.
 3. Profili di copertura in alluminio predisposti per la verniciatura in loco in tinta al soffitto.
 4. Profili di copertura brevettati in estruso di alluminio ad aggancio rapido, in tinta alla struttura delle porte scorrevoli.
1. Patented sliding profile with internal micro finning, designed to reduce and deaden the noise of the panel when it slides.
 2. Adjustment in height of the panel thanks to the lateral cardan joint. The adjustment is possible also with the panel already mounted in order to simplify to the maximum the assembly operations.
 3. Covering profiles in aluminium prepared to be painted to match the ceiling.
 4. Patented covering profiles in extruded aluminium with quick fixing system, in the same finishing of the sliding panels structure.
1. Patentiertes Laufprofil mit Mikroinnenrippen, die die Gleitgeräusche der Türplatte verringern.
 2. Höhenregulierung der Türplatte mittels eines Kardangelenkes. Zur weiteren Vereinfachung der Montage ist die Regulierung auch möglich, wenn die Platte bereits installiert ist.
 3. Die vor Ort Lackierung der Aluminiumabdeckungen sind in derselben Farbe der Decke erhältlich.
 4. Patentierte Schnellkupplung Aluminiumabdeckungen sind in derselben Farbe der Türplatte erhältlich.
1. Profil de coulissement breveté avec des petites ailettes internes, conçu pour réduire et amortir le bruit lors du coulissement du panneau.
 2. Réglage en hauteur du panneau par joint de cardan latéral. Le réglage est également réalisable sur le panneau déjà monté afin de simplifier au maximum les opérations de montage.
 3. Profils de finition en aluminium préparé pour être peint sur place dans la même couleur du plafond.
 4. Profils de finition en extrusion d'aluminium avec fixation rapide, dans la même couleur de la structure des panneaux coulissants.
1. Guía corredera patentada con micro aletas internas, diseñadas para reducir y amortiguar el ruido durante el deslizamiento del panel.
 2. Regulación en altura del panel por medio de cardán lateral. El ajuste también es posible con el panel ya montado para simplificar las operaciones de montaje.
 3. Perfiles embellecedores en aluminio preparados para ser pintados en obra en el mismo color del techo.
 4. Perfiles embellecedores patentados en extrusión de aluminio con enganche rápido, del mismo color que la estructura del panel.

Pannelli porta abbinati ai binari di scorrimento
Door panels for sliding rails

Descrizione tecnica
Technical description

Tutte le porte scorrevoli Rimadesio sono state ingegnerizzate per garantire la massima semplicità di progettazione e per essere installate sull'esclusivo sistema di scorrimento a parete, soffitto e incasso. Una porta scorrevole completa è composta da un binario di scorrimento, un pannello porta e uno stipite o montante opzionale. L'apertura a libro e battente è disponibile unicamente per i pannelli Siparium. Il sistema utilizza un binario di scorrimento e carrelli differenti dal modello a scorrimento lineare.

All Rimadesio sliding panels have been engineered to guarantee the highest design simplicity and to be installed on the exclusive wall, ceiling and built-in sliding systems. A complete sliding panel is made up of rail, door panel and optional jamb or side runner. Folding and swing doors are available only for Siparium panels. The system uses a sliding rail and carriages that are different from the linear model.

Alle Schiebetüren von Rimadesio funktionieren mit einer Wand-, Decken- oder Deckeneinbauschiene. Eine komplette Schiebetüranlage besteht aus einer Schiene, einem Türpanel und einem optionalen Türpfosten. Die Klapptür ist lediglich für die Siparium-Paneele verfügbar. Das System verwendet eine Gleitschiene und einen Schieber, wodurch sie sich vom linearen Gleitmodell unterscheidet.

Tous les panneaux coulissants Rimadesio ont été conçus pour un maximum de simplicité dans le projet et pour être installé sur l'exclusif système de rail plafond, mural ou encastré. Un panneau coulissant complet est composé par un rail, un panneau et un jambage ou montant en option. L'ouverture des portes pliantes et battantes est disponible uniquement pour les panneaux Siparium. Le système utilise un rail et des chariots différents du modèle coulissant linéaire.

Todas las puertas correderas Rimadesio han sido diseñadas para garantizar la máxima simplicidad del diseño y ser instaladas en el exclusivo sistema de deslizamiento a pared, a techo y embutido. Una puerta corredera completa se compone de un carril de deslizamiento, un panel de puertay una jamba o montante opcional. La apertura plegable batiente está disponible solo para los paneles Siparium. El sistema usa una guía y carros diferentes del los del cierre lineal.

Descrizione tecnica Technical description

Le versioni scorrevoli a scomparsa delle porte Rimadesio sono progettate per integrarsi con i più diffusi controtelai in commercio. Una porta scorrevole a scomparsa si compone di un pannello porta e di uno stipite telescopico, in grado di adattarsi alla differenza di spessore fra le pareti, disponibile nelle versioni standard, con sei varianti estetiche, slim e mini.

Rimadesio pocket doors are designed to be inserted into the most common pocket systems on the market. A pocket door is made up of door panel, telescopic jamb that can be adjusted on different thickness of the walls, available in standard versions, with six aesthetic versions, slim and mini.

Die Schiebetüren die in der Metalltasche in der Mauer laufen sind geeignet für die meisten Mauertaschen die am Markt erhältlich sind. Eine Schiebetüre die in der Metalltasche in der Mauer läuft besteht aus einem Türpanel und einem teleskopischen Türpfosten, der sich an die unterschiedlichen Mauerabstände anpassen kann. Dieser ist standardmäßig erhältlich in sechs verschiedenen Versionen, slim oder mini.

La version galandage de panneaux Rimadesio prévoit une intégration avec les plus connus systèmes à galandage sur le marché. Un panneau galandage complet est composé par un panneau et un jambage télescopique, capable de s'adapter aux différentes épaisseur de mur, disponible en version standard, avec six variantes esthétiques, slim et mini.

Las versiones correderas en el muro de las puertas Rimadesio están diseñadas para integrarse con los más populares contramarcos en el mercado. Una puerta corredera en el muro se compone de una puerta y una jamba telescópica, capaz de adaptarse a la diferencia de espesor entre las paredes, disponible en versiones estándar, con seis variantes estéticas, slim y mini.

Descrizione tecnica Technical description

Il pannello porta è l'elemento integrante del progetto che dialoga con l'architettura degli spazi, creando soluzioni di forte impatto. La realizzazione, sempre su misura, è consentita fino all'altezza massima di 2700 mm e alla larghezza massima di 1500 mm. La ricerca tecnologica Rimadesio ha permesso di realizzare un pannello porta che rientra completamente nel controtelaio, assicurando la massima qualità estetica di ogni installazione.

Door panel is the integral part of the project, that communicates with spaces architecture, creating strong effect solutions. The production, always custom-made, can reach maximum height of 2700 mm and maximum width of 1500 mm. Rimadesio technological research allowed to realize a door panel that disappears completely into the pocket system, ensuring the highest aesthetic quality for every installation.

Das Türpanel schafft den Dialog zwischen Architektur und Raum, mit Lösungen die eine starke ästhetische Wirkung haben. Die Ausführung ist immer auf Mass, bis zu einer maximalen Höhe von 2700 mm und einer maximalen Breite von 1500 mm. Die Panele können komplett im Blindstock versenkt werden und garantieren eine maximale ästhetische Qualität.

Le panneau est un élément intégral du projet en dialogue avec l'architecture de l'espace, avec des solutions très percutantes. La réalisation, toujours sur mesure, est possible jusqu'à la hauteur maximale de 2700 mm et la largeur maximale de 1500 mm. La recherche technologique Rimadesio a permis de réaliser un panneau totalement escamotable, et donc avec une installation de haute qualité esthétique.

El panel de la puerta es un elemento integrante del proyecto que dialoga con la arquitectura de los espacios, creando soluciones de fuerte impacto. La realización, siempre a medida, está consentida hasta la altura máxima de 2700 mm y la anchura máxima de 1500 mm. La investigación tecnológica Rimadesio ha permitido realizar un panel de puerta que encaja completamente en el contramarco, garantizando la máxima calidad estética de cada instalación.

Lo stipite telescopico standard
The standard telescopic jamb

L'esclusivo stipite telescopico permette di compensare lo spessore di eventuali rivestimenti con un'escursione massima di 20 mm per lato.

The exclusive telescopic jamb can compensate for potential coating thickness with a maximum range of 20 mm for each side.

Der exklusive teleskopische Pfosten in Aluminium ermöglicht den Ausgleich eventueller Unterschiede in der Mauerdicke auf beiden Seiten bis zu maximal 20 mm pro Seite.

L'esclusif jambage télescopique peut s'adapter aux différents épaisseur de revêtement mural, pour un maxi de 20 mm chaque côté.

La exclusiva jamba telescópica permite compensar el grosor cualquier revestimiento con una extensión máxima de 20 mm por lado.
