

SODA SQUARE

by Yiannis Chikas

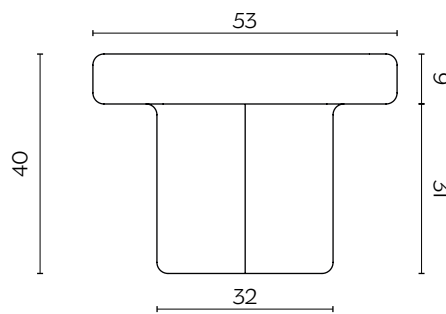

Il principio è sempre lo stesso: un unico volume, a testa in giù, in vetro soffiato a pieni polmoni. Ma questa volta gli steli son diventati quattro, come gli angoli raggianti che definiscono il nuovo top. È sempre Soda, ma con la voglia di stare più vicino: puoi estendere la sua superficie abbinandoli tra loro, o creare composizioni ricercate mixando le varie forme.

The principle remains the same: a single volume, upside down, in beautifully blown glass. But this time there are four stems, and four curved corners to delineate the new top. It is still Soda, but it wants to get up close and personal: you can extend it by matching pieces together, or create sophisticated compositions by mixing the different shapes.
