## MATERIALI IMPIEGATI

### Pietra naturale

Data la caratteristica naturale della pietra, ogni singolo pezzo può presentare venature, differenze di tonalità, intrusioni minerali, avvallature, stuccature.

I nostri prodotti vengono ricavati, tramite lavorazioni artigianali, da unici blocchi in pietra. Ogni tipo di pietra presenta un aspetto diverso per infinite varietà di venature e colori da blocco a blocco. Tali caratteristiche sono la conferma dell'utilizzo di materiali naturali e non possono dare adito a contestazioni.

## ISTRUZIONI PER L'USO E MANUTENZIONE

### PULIZIA

Al momento della posa in opera consigliamo un trattamento idrorepellente al fine di saturarne la porosità senza modificarne l'aspetto originario. Per il trattamento utilizzare il prodotto "Clean Stone", da noi fornito (vedi scheda prodotto).

Utilizzare il prodotto con un panno morbido o un pennello, trattare tutta la superficie interessata e lasciarlo agire per 30 minuti, ripetere l'operazione una seconda volta. Rimuovere eventuali residui di polvere con un panno asciutto.

Pulire con normali detersivi di tipo neutro a basso contenuto alcalino.

Si sconsiglia l'uso di prodotti aggressivi quali anticalcare, acidi, abrasivi, sgrassanti forti, alcool.

### ATOSSICITÀ

Il prodotto non risulta tossico o nocivo all'uomo, agli animali o all'ambiente.

### ECOLOGIA

Alla fine della sua utilizzazione non disperdere l'oggetto nell'ambiente, ma smaltirlo secondo le modalità previste dall'azienda comunale di smaltimento rifiuti.

## PRODUCT DESCRIPTION

## Stone

## MATERIALS USED

### Natural stone

Given the natural characteristics of the stone, each piece can present veins, tonality differences, mineral intrusion or stucco-work.

Our products are hand carved from single stone blocks each presenting a diverse aspect caused by a variety of veins and colors. Such characteristics confirm our use of natural material of which cannot give rise to disputes.

## USAGE AND MAINTENANCE INSTRUCTIONS

### CLEANING

Once installed, we advise a waterproofing treatment without modifying the original aspect.

For treatment use the product Clean Stone provided (see spec sheet). Apply with a soft cloth or brush, treat the entire surface and wait 30 minutes for the product to have taken effect after which apply the second coat. Remove eventual residue of dust with a dry cloth.

Clean with normal neutral detergents with a low alkaline content.

Not advisable are strong abrasive cleaners, grease or calcareous removers, acids and alcohol.

### TOXICITY

The product does not appear toxic to humans, animals or to the environment.

### ECOLOGY

Only discard in appropriate disposals according to rules and regulations in your area.

**Avvertenza:** la presente scheda prodotto ottempera alle disposizioni della legge del 10 aprile 1991 n. 126 "Norme per l'informazione del consumatore" e al Decreto del 8 febbraio 1997 n.101 "Regolamento d'attuazione"

**Warning:** The current product information complies with law n.126 of the 10th of April 1991 "Regulations for consumer information" and to ordinance n.101 of the 8th of February 1997 "Fulfillment Regulations"

## MATERIALI IMPIEGATI

### CORIAN®

Corian® è un materiale compatto e non poroso, composto in modo omogeneo da ± 1/3 di resina acrilica (conosciuta anche come Metracrilato di Polimetile o PMMA) e da ± 2/3 di sostanze minerali. Il componente principale è il Tri-idrato di Alluminio (ATH), un minerale derivato dalla bauxite, da cui viene estratto l'alluminio. Corian® è il materiale originale prodotto dalla DuPont per superfici solide.

Essendo solido ed omogeneo è facilmente riparabile, infatti possibile ripristinare piccole scalfiture con un apposito stucco bicomponente e togliere facilmente graffi, piccoli tagli e abrasioni con l'utilizzo di carta abrasiva, in modo da restituire al prodotto la sua bellezza originale. Molti danni dovuti da urti, calore o prodotti chimici possono essere riparati solitamente sul luogo ridando integralmente alla superficie il suo aspetto originale, regolare, igienico.

## ISTRUZIONI PER L'USO E MANUTENZIONE

### PULIZIA\*

Pulire con panno umido o comuni detergenti liquidi per la pulizia domestica. Sono particolarmente consigliati detergenti liquidi, quali CLEANSURFACE utilizzati con spugna abrasiva tipo SCOTCH BRITE®. Non utilizzare prodotti chimici aggressivi quali acetone, trielina, cloruro di metilene, diluenti di smalto per unghie, acidi e basi forti. Nel caso in cui venga macchiato con smalto per unghie bisogna far attenzione a non utilizzare un solvente a base di acetone che potrebbe danneggiare la superficie.

### PULIZIA RIVESTIMENTO LEGNO

Non usare prodotti comuni per la pulizia del legno che possono danneggiare la finitura opaca. Utilizzare esclusivamente il prodotto CLEAN WOOD da noi fornito. Versare il prodotto su un panno morbido e distribuirlo uniformemente sulla superficie da trattare. Non usare spugne abrasive.

### PULIZIA RIVESTIMENTO LACCATO

Pulire i mobili con panno morbido o spugna non abrasiva umida o con alcool etilico diluito. Tutte le operazioni devono essere effettuate con cura per non graffiare o lucidare la superficie.

### ATOSSICITÀ

Il prodotto non risulta tossico o nocivo all'uomo, agli animali o all'ambiente.

### ECOLOGIA

Alla fine della sua utilizzazione non disperdere l'oggetto nell'ambiente, ma smaltirlo secondo le modalità previste dall'azienda comunale di smaltimento rifiuti.

### AVVERTENZA

I lavabi, piatti doccia e vasche vanno posati in bolla.

### Guida per la rimozione delle macchie\*

Tipo di macchia	Procedura
Manutenzione giornaliera.	A. B. C. E.
Aceto, caffè, tè, succo di limone, olii vegetali, ketchup, residui di grasso, olio.	A. B. C. D.
Acqua ricca di calcare, sapone, minerali.	A. B. F.
Polline di giglio, zafferano, graffio significativo, bruciatura di sigaretta, lucido per scarpe, inchiostro, segno di penna	A. B. C. E.
Mercurocromo, sangue, vino rosso, profumo.	A. B. C. D. E.
Smalto per unghie.	A. B. C. G.
Ferro o ruggine.	A. B. C. H.
Iodio, muffa.	A. B. C. E.

**A** Rimuovere il residuo con panno

**B** Sciacquare la superficie con acqua calda e asciugare con panno morbido

**C** Usare un panno umido e una crema abrasiva leggera (es. Cif®)

**D** Usare una spugna abrasiva (tipo Scotch-Brite®) strofinare sulla macchia con un prodotto detergente a base di ammoniacca (es. Mastro Lindo)

**E** Usare una spugna abrasiva (tipo Scotch-Brite®) e strofinare sulla macchia con candeggina\*\*

**F** Usare una spugna abrasiva (tipo Scotch-Brite®) e strofinare sulla macchia con un prodotto di pulizia anticalcare (tipo Viakal®) o aceto. Sciacquare più volte con acqua calda ed asciugare con panno morbido

**G** Usare una spugna abrasiva (tipo Scotch-Brite®) e strofinare sulla macchia con un prodotto privo di acetone. Sciacquare più volte con acqua calda e asciugare con panno morbido

**H** Usare una spugna abrasiva (tipo Scotch-Brite®) e strofinare sulla macchia con una paglietta o rimuovere la ruggine. Sciacquare più volte con acqua calda e asciugare con un panno morbido

\* Pulire facendo sempre movimenti rotatori

\*\* La candeggina può scolorire il Corian® se non è rimossa completamente risciacquare con abbondante acqua

### PULIZIA SIFONE INTEGRATO DEI LAVABI

Pulire periodicamente il sifone integrato, per eliminare eventuali depositi

- Posizionare un contenitore sotto il sifone, in corrispondenza del tappo d'ispezione posizionato nella parte centrale del lavabo, per la raccolta dell'acqua sporca
- Svitare il tappo d'ispezione e far uscire completamente l'acqua dal sifone
- Far scorrere abbondante acqua calda nel lavabo, inserendo degli stracci nella fessura di scarico del lavabo: prima centralmente e poi lateralmente
- Riavvitare il tappo d'ispezione e far scorrere acqua nel lavabo in modo che la vaschetta del sifone si riempia nuovamente

## MATERIALS USED

### CORIAN®

Corian® is a solid, non-porous surfacing material homogeneously composed of  $\pm 1/3$  acrylic resin (also known as PolyMethyl MethAcrylate or PMMA), and  $\pm 2/3$  natural minerals. These minerals are composed of Aluminum TriHydrate(ATH) derived from bauxite, an ore from which aluminum is extracted. Corian® is the original material produced by DuPont for solid surfaces.

Being inherently "renewable" because it is solid and homogeneous all the way through. Most damages, including severe impact, heat or chemical damage, can usually be repaired on site to restore the original, smooth, hygienic solid surface integrity.

## USAGE AND MAINTENANCE INSTRUCTIONS

### CLEANING \*

Clean with a damp cloth or with common liquid detergents for domestic use. Particularly recommended are liquid detergents such as CIF® used with an abrasive sponge such as a SCOTCH BRITE® pad. Do not use aggressive chemical products such as acetone, trichloroethylene nor strong acids. Warning: Level sinks, shower trays and tubs.

### Cleaning of wood covering

Avoid using common products for cleaning the wood which can damage the matt finish. Use exclusively the CLEANWOOD product provided by our company. Use a damp cloth and distribute evenly over the surface to clean. Avoid the use of abrasive sponges.

### Cleaning of lacquered covering

Clean the furniture with a soft damp cloth or non abrasive sponge or with diluted acetyl alcohol. All cleaning should be done with great care so as not to scratch the surface.

### TOXICITY

The product does not appear toxic to humans, animals or to the environment. Only discard in appropriate disposals according to rules and regulations in your area.

### ECOLOGY

Only discard in appropriate disposals according to rules and regulations in your area.

### WARNING

The sinks, shower trays and tubs must be installed leveled.

\* Clean using a circular motion

\*\* La candeggina può scolorire il Corian® se non è rimossa completamente risciacquare con abbondante acqua

### CLEANING INTEGRATED SIPHONS IN SINKS

Often clean the integrated siphon to eliminate any deposits.

- . Position a container under the sink in correspondence with the inspection cap positioned centered under the sink to capture dirty water.
- . Unscrew the inspection cap and completely empty the siphon.
- . Allow hot water to run through the sink and thoroughly clean the slit in the sink.
- . Screw back on the inspection cap and let water run to fill the siphon back up.
