
Tulip Sixty - Tulip Sixtysix

ARMCHAIRS

Jeffrey Bennett

Description

Two new armchairs have become part of the new collection reserved to the contract market. They are a reassessment of the célèbre Tulip, on the dimensional level. The bigger version, smaller compared to the original model, comfortable and swivel, is supplied with round base-frame in bright brushed aluminium, while the smaller version, with similar dimensions to a chair, is supported by two basic typologies: a four spoke base in bright brushed aluminium or a rod base in bright chromed steel.

Technical information

fabric or leather in limited categories

Technical drawings

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding. For the specific information, please contact the dealer closest to you.
