## NEIL TWIST ARMCHAIR

Designed by Jean Marie Massaud

INDOOR AND OUTDOOR ARMCHAIR

TWIST: NEIL'S EVOLUTION. Gritty, versatile, vibrant, yet at the same time an icon of essentiality, in perfect harmony with MDF Italia's style. These are the main features of Neil armchair, that today comes in a brand new version: Neil twist Armchair, whose eloquent name makes us sense that the manually braided rope is the project's protagonist, with a key detail - the contrasting internal cross-stitch - that adds character to the overall view. But surprises do not end there for what represents the development of Neil armchair: in fact it is proposed in rope with five different colours, with base in white or black nickel round steel wire; with or without armrest.

In this new version, Jean Marie Massaud's chair is highly versatile: it can actually be used both indoors and outdoors, where its neutral or very bright colours will be outstanding in parks and private gardens, meeting places, hotels and public spaces.
