Lounge furniture

sweetspot

A more relaxed approach to work: Sedus sweetspot.

sweetspot not only provides your office with especially attractive and comfortable lounge furniture, but also helps to create a relaxed atmosphere that promotes productive well-being. Regardless of whether it is used for a place to

meet and engage in a creative exchange, a retreat for concentrated work or to welcome visitors in style – *sweetspot* combines business with pleasure. And it does so in an excellent manner, as the international design awards underscore.

reddot award 2014
honourable mention

The essence of concentration and inspiration.

Escape the routine office atmosphere and retreat to a spot that inspires you, where you can develop new ideas and concentrate on your work. *sweetspot* offers the ideal conditions, with its inviting look and excellent ergonomics providing

great comfort in a lounge seating style. At the same time, the relaxed, slightly upright sitting posture aids creative processes and concentrated working – even for extended periods.

Intelligent ergonomics.

The angle of the seat and backrest is pitched so that the user is not only relaxed while sitting, but can also concentrate on work.

As comfy as a sofa.

With its welcoming, open shape, the one-piece shell is fully upholstered.

Pleasant seat height.

At 430 mm, the *sweetspot* seat is higher than conventional lounge furniture, which is why it is so comfortable for working.

A relaxed approach to work. Softly curved armrest wings facilitate changes of sitting position and make it easier to work for extended periods.

Genuine comfort.

11 cm deep, the seat foam is extremely comfortable, even when sitting for extended periods.

Softly cushioned.

The gas lift mechanism compresses approx. 20 mm and ensures immense comfort from the second the user sits down.

Elegant through and through. The slim lines of the four-star base enhance the high-quality look.

Perfect addition.

sweetspot side table, *sweetspot lounge table* and *sweetspot low table* are ideally matched to the *sweetspot lounge chairs*.

Sustainable through and through.

Sustainability and quality “Made in Germany” have been basic corporate principles at Sedus for more than 50 years. These principles are embodied in Sedus *sweetspot* and reflected in the way we work: designing products which are recyclable, using ecologically tested materials, conserving resources, being energy-aware in our manufacturing and conducting ongoing quality tests.

Thus, *sweetspot* lounge furniture is made using a solvent-free powder coating instead of the conventional paint finish. An ultra-modern and extremely environmentally-friendly electroplating process – where the production residue containing metal is completely re-used – is another strand of Sedus’ philosophy of quality and sustainability.
