HAL RE Armchair Wood

Seat shell: dyed-through, recycled polypropylene, with optional seat cushion (screwed to the seat shell).

Base: non-stackable wooden base in natural or dark oak. Connecting element between shell and base in die-cast aluminium, powder-coated in dim grey.

Origin of wood: oak (*Quercus robur*) from Western Europe and/or Poland.

HAL RE Armchair Tube Stackable

Seat shell: dyed-through, recycled polypropylene.

Base: stackable four-legged tubular steel base, chrome-plated finish or powder-coated in basic dark. Up to 6 chairs can be stacked on the floor or on a stacking trolley. Chairs with seat cushions should not be stacked, since stacking could damage the upholstery.

Note: as stacking can cause scratches, we recommend the chrome version for this purpose.
