## Eames® Wire Base Elliptical Table

### Designer

Charles and Ray Eames

### Original Production Date

1951

### Warranty

5 years

Often called “the surfboard table,” this large, low table, designed by Charles and Ray Eames, stretches out dramatically in front of a sofa or grouping of chairs. Its beveled edge brings out the grain of the laminate plywood top, synchronizing perfectly with its signature wire base to make a striking statement in both formal and casual environments.
