

BIRD

Bernhard Osann

Table LED lamp in extruded aluminum with T-shaped support in polymer filled with glass fibers. Composed of a protruding matt black painted arm where the light source is located and a vertical brass counterweight. The lamp, placed freely on the edge of a surface, oscillates and moves but always returns to the horizontal position. The LED module incorporated in the arm rotates around its own axis, making the lamp versatile providing diffused direct and indirect lighting. Switching on and dimming through a proximity sensor.

LED

LAMPING

| | |
|-------------------|--------------------------------|
| Source | linear LED |
| Total power | 10W |
| Emission | orientable |
| Switching | dimmable on board |
| Tension | 110/240V |
| Color temperature | 2700K |
| Luminous flux | 715lm |
| Typ CRI | 85 |
| Energy class | A+ |
| Materials | aluminum, technopolymer, brass |
| Notes | cable length 2m |
| Net lamp weight | 1 kg |

Codes

BIR LNO 11
