Eames® Molded Plywood Coffee Table Metal Base

Designer

Charles and Ray Eames

Original Production Date

1946

Warranty

5 years

Lightweight and compact, this table is an eloquent example of early Eames design. Formed by breakthrough technology that molds plywood veneer into curved shapes, its round top is slightly indented and comes in a range of finishes. Supporting it are slim metal legs in black or trivalent chrome. Complemented by lounge chairs or sofa seating, it creates a striking centerpiece in any space.
