COUNTRY OF ORIGIN
Made in Italy

La serie di contenitori Luxor di Giulio Cappellini presenta elementi disponibili in laccato opaco o lucido; la base è realizzata in metallo verniciato opaco, nello stesso colore della cassa.

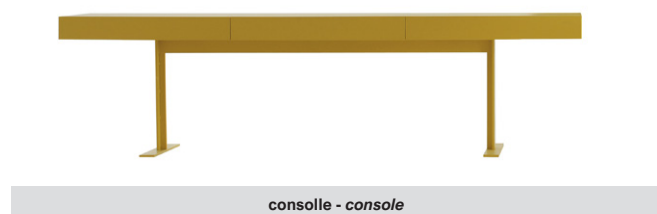

Destinati alla zona living e all'ufficio, i contenitori sono connotati da un aspetto leggero e pulito che li porta a mostrarsi liberi nell'aria; capienti e capaci, sono semplici ma curati nei più piccoli particolari: dalla costruzione della cassa, realizzata parte in conglomerato di fibra ad alta densità e in parte in multistrato di pioppo rivestito con alluminio, alle cerniere studiate appositamente per il progetto. La serie Luxor comprende consolle a cassetti e contenitori a giorno o ad ante a battente, scorrevoli complanari o a ribalta, oppure con cassetti e ripiani interni.

The Luxor cabinet series, by Giulio Cappellini, is composed of elements with a matte or glossy finish; the metal base is matte lacquered with the same finish as the cabinet.

Destined for living room or contract settings, these cabinets have a clean, light, free-standing appearance; spacious and well-conceived, they are simple yet designed meticulously down to the smallest details: from the construction of the case – made partly of high-density fibre conglomerate and partly in aluminium-covered poplar plywood – to the hinges which were designed specifically for this collection. The Luxor series includes sideboards with drawers and open-faced cabinets or with hinged, sliding or flap doors, and can be fitted with internal drawers and shelving.

GIULIO CAPPELLINI

Formatosi come architetto a Milano, Giulio Cappellini è una figura emblematica nel panorama internazionale del design. Animato da uno spirito indomito e dalla curiosità di chi vuole continuamente rinnovarsi, Cappellini svolge il suo lavoro di progettista proponendo una personale rilettura del design contemporaneo, sia per il marchio che porta il suo nome, sia in qualità di art director per altre importanti aziende del settore. Cappellini diventa un vero e proprio "trend setter", fino ad essere riconosciuto universalmente come talent scout di giovani professionisti. In molti sono stati poi i lanciati attraverso collaborazioni chiave con l'Azienda: Jasper Morrison, Marc Newson, Marcel Wanders, i fratelli Bouroullec e Nendo, per citarne alcuni. Seguitissime sono anche le sue lezioni presso prestigiose scuole di design internazionali come Istituto Marangoni della quale è anche art director ed altri istituti nel mondo dai quali è invitato come visiting professor.

Trained as an architect in Milan, Giulio Cappellini is an emblematic figure in the international design panorama.

Animated by an indomitable spirit and the curiosity of someone who wants to renew himself continuously, Cappellini dedicates himself to design by offering his personal revision of contemporary design, both for the brand that bears his name, and as art director for other important brands in the field. Through his most ambitious project, his company, Cappellini has become a bona fide trendsetter, such that he has become universally recognized as a talent scout for young professionals. Numerous names have been launched through collaborations with his brand: Jasper Morrison, Marc Newson, Marcel Wanders, the Bouroullec and Nendo brothers, just to name a few.

His lectures at international design schools are also very popular, at institutions such as Istituto Marangoni, for which he is also Art Director, and other establishments around the world where he is invited as a visiting professor.
