

ø 30 mm (1" 3/16) line, length from 200 mm (7" 7/8) to 1000 mm (39" 3/8), supports and terminal elements excluded

ADTL1000_

García Cumini, 2016

Accessories made of tubular Aluminium consisting of brackets (dot) supporting a bar (line) with brushed black anodized finish or with natural dark, black oak veneer. The brackets and hooks are made of black anodized. In addition to each single item it is possible to obtain a continuous bar that performs the various functions. Both the individual items and the continuous bar can be fitted with shelves, hooks or glasses freely positionable along its entire length.

Diameter: 3 cm 1" 3/16 inches

Note: For custom bars it is necessary to send an outline with an indication of the fixing points required. Fixing kit included. Accessories are wall mounted by means of screws and wall plugs. Minimum order quantity: 4 pieces for any combination of item and finish. For smaller quantities, add 20% surcharge.

Finishes

-  Natural oak
