Meeting and bistro chair
on spot

Rarely has work been so little work.

The best ideas generally arise where people come together and feel comfortable. With Sedus *on spot* and the exclusive version *on spot vero* you can create the right atmosphere. Its inviting and cosy design combines the relaxed character of a lounge with productive seating ergonomics. It is a concept that promotes a culture of dialogue – the time where work was solely done by the desks in its past. Team and co-working areas and places of retreat are also becoming increasingly important – these are the central areas for which *on spot* has been developed.

Welcome home at the office.

Concentration or creativity? Efficient or relaxed working? With *on spot* you no longer have to choose one or the other – it combines all options. You're still the deciding type? Great: you have a choice of many different versions that can all be individually configured.

C11 Oak

Personal. Four shell colours, four frame versions, metal or wood, puristic or upholstered – *on spot* not only combines work and well-being, but also allows a personal touch. Felt seat cushions in grey and graphite are available as accessories.

No matter which *on spot* you go for: the homely design not only looks good, it does you good too. The shell that flows around the body, the comfortable armrest wings and the lumbar support provide ergonomics you can feel. The result: a comfortable seating position perfectly balanced between an active and a relaxed posture.

Hunting the muse.

Ideas don't come by themselves, you have to seek them out – for example in the lounge, the break area or the library. Whether main office or home office: with *on spot* both creative and concentrated work are possible everywhere that's best for ideas and results.

Design feeling. A special production process allows a seat shell with a uniform, aesthetic shape on the outside while the inside is ergonomically pleasant with a seat pan and lumbar support.

Pleasant. *on spot's* comfortable seating position is complemented by comfortable armrest wings with a wide contact surface.

on spot vero: the first business card you can sit on.

Wherever guests and business partners are received, Sedus *on spot vero* is a must. In foyers, executive suites or representative meeting rooms, this exclusive version of *on spot* is a business card that makes a good impression. Elegant, elaborately stitched extra thick leather that completely covers the seat shell signals an upscale sense of style. There are also clever finishing details such as seams in contrasting colours or upholstery edges carefully reworked in the colours of the seams. No question, *on spot vero* is not just a seat but above all also a statement.

Accented. The upholstery edges take up the colour of the contrasting seams, which run in the directions best for seating comfort.

Stable. For *on spot vero* a swivel chair frame in six colours and a four-leg frame in beech or oak are available to choose from.

OBC dark brown, thread cognac

Sustainability down to the last detail.

Sustainability and quality “Made in Germany” have been key company principles at Sedus for more than 50 years. Principles that *on spot* also perfectly embodies – with its long product life alone. It also features a recycling-friendly product design and resource-saving production.

Naturally preference is given to recycled materials in manufacturing – for example, the *on spot* shell has a recycled plastic content of around 40%. Another plus in production: the ultramodern, particularly environmentally friendly electroplating facility, where all metal-containing production residues are fully recycled.

More information is available at www.sedus.com

Environmentally friendly shine. At Sedus, perfect chrome finishes also mean a treatment plant that removes production residues from the water.

Upholstery that lasts longer. Quality that is not only durable but also exemplary in terms of tear and chemical resistance.

Powder coating instead of painting. A high quality finish, optimum rust protection and good for the environment too.

Sedus operates globally in accordance with the principles of the UN Global Compact on human rights, labour standards, environmental protection and fighting corruption.
