

.04

Maarten Van Severen, 2000

.04

.04 Counter

Maarten Van Severen's .04 office chair is distinctly different in appearance from typical task chairs used in institutional settings. Yet it offers advantageous ergonomic features: the office chair's flexible integral foam shell has a comfortable sitting surface and pleasantly pliant back, and the micro-mechanism with a

rubber ball joint allows gentle multi-directional movement. With its unobtrusive design, the .04 task chair is ideally suited to studio environments and home offices.

- **Backrest and seat:** flexible backrest with integrated leaf springs. Polyurethane integral foam seat shell with upholstered effect, self-supporting on a steel frame.
- **Armrests:** with or without armrests in integral foam.
- **Micro-mechanism:** rubber ball joint allows multi-directional movement. Height-adjustable.
- **Base:** five-star base and die-cast aluminium bridge, powder-coated.
