The washbasin in the Ell series is an iconic but lightweight piece. The flat surface with its breakwater-grill is also the basin, and the two become a single element. Today, in a simultaneously creative and rigorous sequence, the investigation arrives at the pure essence of the washbasin. Two simple architectural elements that radicalize functions. The entire surface, completely integrated with a breakwater-grill, eliminates the usual basin and emphasizes its dual use as a washbasin and support surface. The piece comes in a wide range of finishes: the top is in white Carrara, grey Carnic, black Marquina or green Alpi marble, the grille is in white or deep caviar Corian®, and the column is in white or dark powder-coated steel.
