LIVING LANDSCAPE 730. Design: EOOS.

Living Landscape 730 reacts flexibly to different situations. Sides and back form one unit. They turn with the seat and change their position. The result is a new perspective, a new impression of the room. Rounded off perfectly by footstools on castors. Individual comfort for prestigious seating in a small room, a lounge, lobby or loft.

Product description

Modell no.	730

Frame/Base

Frame: wooden construction with spring core.
Base: beech painted RAL 9005 deep black with glides with stoppers.
Upholstered seats: with castors. Castors are suitable for soft and hard floors. Brake loaded Castors activate when seated.
Optionally with castors and base skirting in beech painted black (for surcharge).

Upholstery

730 upholstered seats:
cold cure core sandwich construction.

730 Elements and armchair:
Fixed seat and back cushions.
Cold cure core sandwich construction (formal look).
Function

End and corner elements can be turned 90°.
L stands for attached left and turn anti-clockwise.
R stands for attached right and turn clockwise.
The direction of rotation can be changed on request.
The integrated mechanism arrests while seating, it just swivels without weight.

Space requirements

All information in cm.

LIVING LANDSCAPE 730.
