

Baghdad

Ezri Tarazi

General description:

Table with top composed of about 700 extruded aluminium profiles, all different the one from the others, skilfully welded. Legs are realised through extruded profiles coming from the top such as to reveal the absence of a structure. Pattern of the top reminds the Iraqi capital, Baghdad. Production time is about 4 working weeks.

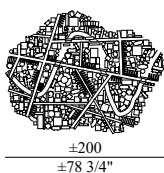

Technical description:

Available in 2 formal versions, regular and irregular shape, and in 2 heights. It has no support structure. Top realised in hand-welded industrial anodized aluminium profiles. Legs in aluminium.
